Section 18
Specific Exemption
03-TX-XX

FOR DISTRIBUTION
AND USE ONLY IN
TEXAS

Furadan® 4F

Insecticide-Nematicide

For Agricultural or Commercial Use Only

EPA REG. No. 279-2876

EMERGENCY CALLS: 800-331-3148

The Environmental Protection Agency has granted a specific exemption for the use of Furadan 4F in cotton. This specific exemption is valid from April 17, 2002 through October 31, 2003.

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

CROP	PEST	RATE OF APPLICATION
Cotton	Cotton Aphid	1/2 pint (0.25 pound active) per acre

DIRECTIONS FOR USE:

Use Furadan 4F at a rate of 1/2 pint per acre. A maximum of 2 applications per season may be made. Applications may be made with air or ground application equipment. Use a minimum of 5 gallons of finished spray per acre by air or 10 gallons of finished spray per acre by ground application. Any deviation from these rates will be considered a violation of this section 18 specific exemption.

RESTRICTIONS:

A copy of the EPA Section 18 approval notice File Symbol: 03-TX-XX must be in the user's possession at the time of the application.

Use of closed mixing and loading systems for both aerial and ground application is required. Handlers of Furadan 4F are required to wear coveralls over a long-sleeved shirt and long pants, shoes and socks for each job function, chemical resistant apron (when cleaning equipment, mixing or loading), chemical resistant headgear for overhead exposure, protective eye wear, chemical resistant gloves and respirator.

After foliar applications on cotton, do not enter or allow workers to enter into treated areas within 48 hours. If prolonged intimate contact with cotton will result do not enter or allow workers to enter treated areas for 14 days after foliar application without wearing Coveralls of closely woven fabric, Chemical-resistant gloves, Shoes and socks.

All treated fields must be posted with Worker Protection signs where Furadan 4F is being applied to control aphids. The signs must be posted prior to treatment. Signs shall remain in place for the entire reentry interval of 14 days.

In order to protect Federally listed threatened and endangered species, application is prohibited within one (1) mile of bald eagle nests; within 100 yards for ground applications and 1/4 mile for aerial applications for other terrestrial species; and within 20 yards for ground applications and 100 yards for aerial applications for aquatic species. Do not apply directly to water, including immediately before or during irrigation. Do not apply where run-off is likely to occur to aquatic habitats. Do not make aerial applications within 200 yards, or ground applications within 20 yards of bodies of water, including rivers, streams, lakes, ponds, bogs, etc. In order to minimize risk of spray drift, users must adhere to the measures listed in the EPA Specific Exemption approval document.

Do not use Furadan 4F through any type of irrigation system. Do not apply within 27 days of harvest. Do not feed cotton forage.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA REGISTERED LABEL ARE TO BE FOLLOWED. PERSONAL PROTECTIVE EQUIPMENT AND REENTRY INTERVALS ON THIS LABELING OR ON THE BASIC LABEL MUST BE FOLLOWED. THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.
